

*Dear Customers & Business Partners,*

*Sanel Auto Electronic, which has been active in automotive electronics since 1980, has become a R&D center as a result of the evaluations made by the Ministry of Science Industry and Technology in 2017. As of 2018, we began to cooperate with national universities and invested in specialized testing equipments and various software.*

*We are ready to develop innovative and competitive products and projects in a more concentrated way with our 32 expert staff operating in their areas.*

*We're looking forward to hearing your ideas and requests.*

*Sanel R&D team*
